AUCTIONEERS FOREWORD

Hassall Brothers & CCM Auctions are delighted to have received instructions to conduct this major reduction sale from the Threshfield herd, the property of A L Dean & Sons. The sale is extensive in numbers offering nearly 200 head comprising of 120 milking cows and heifers, with 30 in calf heifers, as well as heifer calves and youngstock.

The Dean family have carefully and skillfully crafted their Threshfield herd of Pedigree Holsteins. Angus has enjoying attending sales and securing great cow families developing the herd to its current standing today and what a fantastic herd of cows it is. With numbers at Toft House farm reaching an all time high and the buildings fit to burst, this has prompted the decision to reduce the herd to bring it back to a more manageable level for the facilities on the farm for the winter, providing purchasers the opportunity to secure fantastic honest cattle from a genuine home, with the added bonus that the majority of the cows offered for sale are fresh calved or close to calving. The cows are of a medium size with great strength through the chest and rump with well attached udders and the cows walk well on fine legs and feet. Predominantly the younger portion of the herd is offered for sale; with the health status of this herd a particular feature (covered in detail later on).

Modern sires feature throughout the catalogue and this has certainly contributed to the quality animals on offer in this sale, the sale catalogue is full of great milk cows that are suitable for all systems and these cows will suit any commercial milk producer as well as Holstein breeders as 'there is something for everyone'. The cows are capable of producing large volumes of milk and a particular feature is the weight of fat and protein, the current herd average is rolling at 8882kg at 4.36% Fat and 3.13% Protein with a CC 129. There are many great individuals in this sale and many gems to be discovered, with a couple that are particularly firm favourites at Toft House Farm. Threshfield Million Tilly (EX92) (Lot 32) - this awesome cow can certainly be appreciated by any cow enthusiast being just so balanced and correct throughout, she was successfully shown this year at the Great Yorkshire Show and certainly gained herself many added fans. This cow is still milking like a train and is safely back in calf to Bankroll for January 2018, backed by ten generations of Very Good or Excellent cows tracing back to Condon Triple Tilly (VG87 5* Brood Cow). Another cow well worthy of a mention is Threshfield Seaver Columbine (EX90) (Lot 25) a 3rd Calver, and due to calve to Kingpin on the 23rd September, who is youthful and very correct.

There are many more great breeding families throughout the book, to note a few they include, Spottie, Marqi, Nora, Elegance, Cissie and Ebony along with many other rock solid families with great classifications. The sale animals are boasting 4-Excellent; 23-Very Good; and 36-Good Plus scores currently with many of these milking heifers. There are many animals which will score higher as they go through their life. Sires prevalent in the milking portion are Stanley Cup; Million; Lauthory; Seaver; Glauco; and Shottle, to name just a few, however when you read through you will find many more of the leading bulls featured. Service sires include, Graffeti, Bankroll, Kingpin, Mogul, and British Blue.

The youth of the animals offered is also impressive; there are (40) 1st calved heifers, (28) 2nd calvers, (16) 3rd calvers and only a handful of cows fourth calf or more.

The in calf heifers are such a tremendous group of wealthy heifers that are highly attractive to many and are due from this November onwards, a lovely portion of yearling heifers are offered and the heifer calves born from the sale animals will be offered as 'A lots' following their respective dams.

Management at Toft House farm has been strictly commercial in approach with the main aim being commercial milk production; Angus and John have carried this out superbly and the attention to detail on the farm has been great, which is reflected in the cows, they have been milked twice daily through the herringbone parlour where they receive a top up concentrate. In addition the cows receive a semi TMR ration at the barrier and during the summer months graze at pasture. During the winter months the cows are housed in cubicles, as already mentioned they are cows which are hardy and suitable for all systems and have a natural will to milk.

The herd health status at Toft House farm is impressive, the farm is vaccinated for BVD, and all animals offered for sale have been antigen tested using a tag and test system and are all negative. Johnes has been monitored closely at the farm, and all animals in the sale tested negative for this. IBR vaccinations have been carried out since 2011.

The herd resides in a LOW RISK TB test area and is tested every 48 months, the herd tested clear on the 5th December 2016.

All cattle are eligible for export to Northern Ireland and the family are keen to work with anyone who needs to leave cattle for a few days into the working week if this facilitates movements.

This catalogue has been very well supported by advertisers and I know I speak on behalf of the Dean family when I thank them for their support and input into shaping the herd and cattle on sale.

Toft House Farm lies at the heart of the Yorkshire Dales running from beside the River Wharfe upto limestone pasture at 1200 feet. The beautiful small town of Grassington (staging a 1940s weekend on the sale day), and the nearby market towns of Skipton and Hawes provide lots to see and do for family or visitors travelling to the sale with prospective buyers. To facilitate this the Dean family have kindly offered to accommodate and milk cattle after sale for a short period making the sale part of your weekend getaway - easily accessible by car and without the need to have a haulier on standby to remove purchases on sale day. The area offers a multitude of great places to stay, such as The renowned Conistone Hotel for those looking for a little luxury, while a range of other venues are offered within the accommodation listings.

This is a splendid herd of cows that offers all purchasers the opportunity of securing cows that are suitable to many different practises and certainly these cows and youngstock would be the modern commercial milk producers dream. For the pedigree enthusiast there are certainly many stars to select from. Every effort should be made to attend Toft House Farm, please come along and spend a day in the stunning location of North Yorkshire where the Dean family look forward to welcoming you to be a part of this special day and invite you to purchase from their quality herd of genuine cows. The sale animals are a true reflection of the Dean family - truly genuine in every respect. We look forward to seeing you on Saturday 16th September.

Stuart Hassall, Hassall Brothers

A HERD HEALTH SUMMARY FROM THE KINGSWAY VETS ON THRESHFIELD HOLSTEINS:-

The Toft House herd has an excellent health status. The farm is in the Low Risk TB Area of England and is tested every 48 months. The last test was carried out on 5th December 2016 and was clear.

The herd has been vaccinated against BVD virus since 2005 and is monitored for signs of BVD infection via bulk tank BVD antigen tests and youngstock antibody tests annually. All the animal offered for sale have been antigen tested using a tag and test system and have tested negative for BVD virus. Results for individual cows are available on the BVD Free England website.

Quarterly milk testing for Johnes Disease has been carried out since November 2013, fewer than 2% of tests have been positive in the last 12 months. A Johnes Control plan is in place. No animals in the sale have ever not tested negative for Johnes Disease.

IBR vaccination has been carried out since 2011. All the cows were vaccinated with IBR marker inactivated vaccine in May 2017, heifers and first lactation animals were injected with inactivated IBR marker in April and May 2017.

Please contact Kingsway Veterinary Group on 01756 700940 if you wish to discuss Toft House herd's disease status.

AUCTION RULES

All animals will be sold under the Holstein UK Rules, which can be found in full on the Holstein UK website, and also under the LAA auction rules (available from the auctioneers on request.)

Breeding Guarantees:-

All cows and heifers that are stated in the catalogue of sale to have been served not less than ten weeks before the date of sale, or to have been running with a bull between dates (the later of which is not less than ten weeks before the date of sale) will be guaranteed by the Vendor to be in calf either to the date or one of the dates of service if more than one is stated, or to a service between stated running dates and to the bull stated in the catalogue of sale unless any alteration is announced by the Auctioneers at the time of the sale.

Should any animal prove not to be in calf, any claim under this guarantee must be made to the Auctioneer in writing within 7 weeks of the date of sale.

Should any animal which is declared to be in calf prove not to be in calf to the date or one of the dates of service or to some date within the running period or periods or to the bull stated as above any claim must similarly be made immediately any evidence in support of such a claim is available and in any case not later than 28 days after the date on which the animal was due to calve according to the date or dates stated in the catalogue of sale.

Any cow sold as unserved since last calving; or heifer sold as unserved, shall be so guaranteed by the Vendor and notice of any claim under this last mentioned guarantee must be given to the Auctioneers in writing immediately any evidence is available and in any case not later than fifteen weeks from the date of sale.

The Vendor may withdraw any guarantee under this paragraph

Udders Warranted

Unless otherwise stated or announced, any cow in calf or in milk or any heifer in milk at the time of sale shall carry a guarantee that she is sound in udder and teats at the time of sale but no claim under such guarantee can be entertained unless made to the Auctioneers by 12.00 noon on the day following the sale for a cow in milk or within two hours following the close of the sale for a dry cow. If the Auctioneers are satisfied that the udder is not sound in all respects, the sale of the animal may be cancelled.

Note: At Herd Dispersal or Breeders' Home Sales, the Vendor must provide adequate facilities for udders to be inspected and for adequate milking facilities to be available for the purchaser in accordance with the warranty.

**ALL MILKING ANIMALS AT THE THRESHFIELD SALE WILL BE MILKED OUT FULLY THROUGH THE PARLOUR
HAVING BEEN SOLD THROUGH THE RING AND PRIOR TO LOADING AND LEAVING THE FARM.**
